

Shalom Dear Donors and Friends of the Olim Fund of the Land of Israel,

What a joy it was at our recent meeting for our Board to be able to distribute more than \$10,000 to resolve the very urgent survival level problems of 13 different olim (Jewish immigrant) families and individuals spread throughout this wonderful Land of our inheritance. On behalf of these hurting dear ones, our Board members and our now more than 30 representatives, we thank each of you with all of our hearts for your generous and faithful response that has made this wonderful outreach a continuing and growing reality.

The details of this month's distribution are summarized in the attached report. You may notice that many of the gifts are in the same converted dollar amount of \$704 which happens to currently be equal to 3,000 Israeli New Shekels. The reason for this is that we have capped our dental assistance at this level, and often, except in extreme cases of need we try and keep many of our other gifts at this level. The rationale for this policy is to allow us to distribute your generous outreach among as many qualified and hurting families as we possibly can within the limits of our donation base.

As you can see from these different situations as noted in this report, we deal with a wide variety of needs, many of which are heart wrenching.

There are only so many ways to say thanks. Please consider this to be our most sincere expression of them all.

With God's richest blessings,

Bob Fischer  
Founder and General Manager  
The Olim Fund of the Land of Israel

## Olim Fund of the Land of Israel

### Monthly distributions for July, 2007

<b>Family Size</b>	<b>Location</b>	<b>Monthly Income</b>	<b>Overview of Situation Funded</b>	<b>Gift</b>
2	Poriyya	\$1,032	The seriously ill head of this family has had his current dentures for more than 20 years and they no longer fit making eating very painful, further exacerbating his other health problems. This gift will provide him with new full mouth dentures from our Tiberias clinic.	\$704
1	Kiriat Yam	\$496	This 44 year old single man suffering with diabetes is in life threatening need of a kidney transplant, a donor of which is not available in Israel. A donor has been located in his native Russia but he can't afford this travel cost. This gift will provide him with most of the cost of round trip air tickets.	\$704
7	Ashdod	\$1,188	This large family with five young children recently moved into an unfurnished apartment since the head of the family suffered a disabling work accident and is now receiving only marginal support from the government. This gift is to provide limited furnishings for the children's rooms and some short term help with food and clothing.	\$939
6	Ashkelon	\$962	This mother and her five young children were abandoned by the head of the family who is now providing very limited support for his children. This gift is to provide food, clothing and other survival needs.	\$587
1	Ashdod	\$622	This widow who lives along on a small pension is unable to pay for urgently needed dental care. This gift will resolve her immediate problem.	\$704

3	Kiriat Shmona	\$949	This now divorced father of two very young children was abandoned by his alcoholic wife. He is now caring for his children while trying to finish his training as a computer programmer. A job awaits him in three months after he graduates. In the meantime he must pay for expensive day care and other related expenses for his children, along with his own heavy school expenses.	\$939
6	Migdal ha Emek	\$528	The mother of five children was the principal wage earner before she suffered from breast cancer requiring radical surgery. She has now lost her job and at best will not be able to look for another for at least six months. She will not begin to receive help from the government for at least three months.	\$657
4	Hadera	\$821	The head of this family is now a recovered alcoholic looking for work. During the time of his treatment the family was unable to pay for even their minimum survival. They are now threatened with eviction and the soon termination of their utilities.	\$704
2	Livnim	\$986	The 52 year old head of this family is suffering from stage four prostate cancer and is unable to work. A side effect of his radiation therapy has been severe sleep apnea and he urgently needs a machine to help him breath at night. He also must pay for some medications which are not provided by his government insurance. His wife is working part time in Tiberias but must travel some 12 miles to and from work each day creating a large travel expense.	\$1,291
2	Arad	\$1043	This wife of a holocaust survivor has a set of worn out full mouth dentures that need to be replaced so that she can once again eat without pain.	\$704

1	Haifa	nil	This divorced 45 year old woman works in a drug rehab center as a volunteer where she receives room and board but no salary or help from the government. She urgently needs dental care to resolve her constant pain.	\$704
5	Karmiel	\$925	The head of this family of five has been unemployed for several months and only recently found a full time job. As a result, they have fallen far behind in rent and utility payments, and even more urgently, the mother is in constant pain from dental problems that need immediate attention.	\$704
1	Arad	\$548	This 100% disabled woman is confined to a wheelchair and needs immediate dental care to treat her many pain causing problems.	\$704
			Total monthly distributions	\$10,045
